DETAILED ACTION

Oath/Declaration

1. Applicant failed to state an error correctible by reissue under 35 USC 251. Applicant's error of the mislabeled prior art figure is a clerical error, and would be corrected by a certificate of correction. Only substantive errors in the drawings can be corrected by a reissue (see MPEP 1402, last paragraph). The Applicant's error of not claiming the apparatus of the conductive line is not an error correctible by reissue, because the Applicant has showed no intent to claim the apparatus. The Parent Application 09/249,547 included a restriction requirement on 4/27/2000. The Applicant never filed divisional applications for the non-elected inventions, and as such foreclosed his right to claim the non-elected inventions and to divisionals of unclaimed subject matter. See *In Re Weiler*, 229 USPQ 673.

2. Claims 25-38 are rejected as being based upon a defective Oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the Oath is set forth in the discussion above in this Office action.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
